The Cancer Resource Center of the Finger Lakes

...because no one should face cancer alone

No one is prepared to hear the words, “You have cancer.” It’s like entering a world where you don’t understand the language or even know which questions to ask.

Everyone feels lost at first.

This guide is designed to help you identify potential resources. It provides the answers to the questions we are asked about most often here at the Cancer Resource Center.

The Cancer Resource Center of the Finger Lakes is a local non-profit organization serving individuals in and around Tompkins County who have been affected by cancer. We are not affiliated with, nor do we receive funding from, the American Cancer Society.

We recognize that every person and every cancer is different, so we begin by listening. Many people come to us when they are first diagnosed. Others come because they are concerned about a loved one with cancer. We answer questions, suggest resources, and share what we’ve learned from others who have come through our doors.

Our programs include one-on-one assistance, support groups, financial advocacy, financial assistance, transportation assistance, a boutique, and wellness programs. We are happy to track down additional resources for you, just contact us with your question

Advice for People Newly Diagnosed with Cancer

by Bob Riter

The first few days following a cancer diagnosis are like riding on top of a speeding train. You're hanging on for dear life and can't quite see what's ahead. Although every situation is somewhat different, this is what I generally suggest:

- Focus on one step at a time. If you are having a biopsy next week, focus on that biopsy and do not let your mind wander to what might happen next.
- Take someone with you to medical appointments. They can take notes and help you remember what was said.
- Do not hesitate to ask your doctor to repeat something. Do not hesitate to get a second opinion if you think it might be helpful. Your doctor won't mind. (If your doctor does mind, you should get another doctor).
- Family members, friends, and complete strangers will give you advice. Be wary when they say, "You *should* do..." Though well-intentioned, they may not know what is best for you.
- You control who to tell about your cancer diagnosis and when to tell them.
- Remember that cancer treatments change rapidly. What you hear from people who were treated in the past is out of date.
- Understand that cancer is not a single disease. Lung cancer and breast cancer are very different diseases. There are even 14 different types of breast cancer. What you hear about cancer in other people probably does not apply to your cancer.
- Survival statistics are averages. They can be helpful if you want a general idea of the prognosis for people with your disease, but they can't predict what will happen to you as an individual.
- A new cancer diagnosis is rarely a medical emergency. You generally have several days or even weeks to explore your options. Some situations do require immediate attention, ask your doctor how long it is safe to wait before beginning treatment.
- Do not begin a radical "cancer curing" diet or major lifestyle changes before or during treatment. Just eat sensibly and nutritiously, exercise moderately, and get plenty of rest. You can make whatever lifestyle and diet changes you want after treatment is over.

- Nearly everyone undergoing cancer treatment experiences fatigue. It is probably the most common and least publicized side effect. Conserve your energy for activities that are most important to you.
- Nothing goes in a straight line. You will feel better one day; then you will feel worse; then you will feel better. Do not be discouraged by the down days.
- Being diagnosed with cancer is life-changing for many and life-disruptive for nearly everyone. It is difficult at first, but once the decisions are made and treatment begins, most people gradually regain their rhythms. Cancer isn't fun, but treatment often ends up being more manageable than people expect. It's a club that no one wants to join, but trust me, you're in good company.

Bob Riter joined the staff of the Cancer Resource Center as Associate Director in 2000 and was the Executive Director from September of 2010 - September of 2017. Bob contributed regular articles about cancer for the Ithaca Journal. Bob's columns are available online at www.crcfl.net or in his book, When Your Life is Touched by Cancer: Practical Advice and Insights for Patients, Professionals, and Those Who Care (©Hunter House Publishers, 2014).

Free Cancer Screenings

The New York State Department of Health has a **Cancer Services Program in Cortland and Tompkins Counties**. Their mission is to reach all uninsured/under-insured residents in Cortland and Tompkins Counties (who qualify) to provide free breast, cervical and colorectal cancer screenings to reduce cancer rates in our counties.

The Age-Appropriate, Risk-Based Screenings offered by the CSP are:

- Mammograms and clinical breast exams for breast cancer.
- Pap tests and pelvic exams for cervical cancer.
- Take home fecal tests (FIT or FOBT) for colorectal cancer.
- Screening colonoscopy for men and women at increased risk for colorectal cancer.

For more information about screenings and eligibility, contact the Cortland County Health Department at 607-758-5523.

Support, Educational, and Wellness Groups at CRC

The Cancer Resource Center of the Finger Lakes has multiple support groups to benefit those affected by cancer. The types of support groups and the meeting schedule is listed below. Nutritional Assistance

The Cayuga Center for Healthy Living has registered dietitians available to provide information about cancer-related nutrition and needs. Contact them for a consultation at 607-252-3590.

The Oley Foundation provides resources and information for people dependent on tube feeding or IV nutrition. Contact them at 518-262-5079.

The Cancer Resource Center occasionally receives donations of Jevity, Glucerna, and Ensure. Contact our office for current availability at 607-277-0960.

The Partnership for Prescription Assistance is a clearinghouse for assistance with nutritional supplements. You may qualify for assistance from the manufacturer of the products. Contact the program at 888-477-2669.

Home Health Care

Information and Referral:

NY Connects is a collaboration between the Tompkins County Office for the Aging and Long Term Care Services to provide information and referral about the many long term care services available in Tompkins County. NY Connects can provide information and assistance for home meals, transportation, home care, counseling, and more. Contact the Tompkins County Office for the Aging for more information at 607-274-5482.

Home Care Service Providers:

Several private and public agencies provide home care in Tompkins County. Services offered and rates vary, so call the provider for more information.

Finger Lakes Independence Center	607-272-2433
CareGivers	607-275-0238
Classen Home Health	607-277-1342
Comfort Keepers	607-272-0444
Visiting Nurse Service of Ithaca and Tompkins County, Inc.	607-273-0466

Pain Control

Cancer pain should be addressed quickly and aggressively. The treating physician is the first contact, but other resources are available:

Palliative Care is a program of **Hospicare and Palliative Care Services**, located in Tompkins and Cortland Counties. Palliative care specializes in relieving the symptoms and stress of serious illness. Symptoms may be physical, emotional, or spiritual. The goal is to improve quality of life for you and your family. Palliative care may be appropriate at any point in an illness, from diagnosis on, and it can be provided at the same time as treatment that is meant to cure you.

Working in partnership with your primary doctor, the palliative care team can provide:

- recommendations for treatment of pain and other symptoms
- clear communication between you and your family
- help in navigating the healthcare system
- opportunities for extended discussions about goals and options
- practical information about community resources
- emotional and spiritual support for you and your family

Palliative care consultations can be done in your own home, in an assisted living facility, nursing home, or hospital. Contact them for more information at 607-272-0212 or at **www.hospicare.org**.

Ithaca office:

172 East King Road, Ithaca, NY

Cortland office:

11 Kennedy Parkway, Cortland, NY

End of Life Care

Hospice is a philosophy of care for the dying and their families that affirms life, but does not deny death. Support and care are provided in the last phase of a person's illness so that they may live as comfortably and autonomously as possible.

Hospicare and Palliative Care Services provides hospice care wherever the patient lives: at home, in skilled nursing facilities, adult homes, or at Cayuga Medical Center. Hospicare also has a residence in Ithaca for people whose caregiver is no longer able to care for them or for people living alone without adequate care and support.

Hospice is covered by Medicare, Medicaid, and most private insurance plans. In addition, Hospicare and Palliative Care Services offers another program, Personal Attention to Health (PATH) that assists individuals in navigating the medical, emotional, spiritual and logistical challenges associated with *any* serious illness, including cancer.

Anyone can contact Hospicare for more information or to request an assessment. A doctor's referral or authorization may be required for some services. Contact them for more information at 607-272-0212 or at www.hospicare.org.

Ithaca office:

172 East King Road, Ithaca, NY

Cortland office:

11 Kennedy Parkway, Cortland, NY

Mental Health Services

Depression, anxiety, and other mental health concerns are common during cancer treatment and recovery.

An **Employee Assistance Program** (EAP) is typically offered through your employer, and can provide resources available to you in your area. Contact your human resource department to see what benefits are provided.

The Family and Children's Service of Ithaca provides mental health services on a sliding scale, based on household income, in addition to serving those with private insurance, Medicare and Medicaid. They provide various types of counseling depending on your age, situation, and needs. Contact them at 607-273-7494 or at www.fcsith.org.

The Mental Health Association in Tompkins County is a good resource for information on mental health resources in our area, including a comprehensive list of private practitioners. Contact them for information on their programs and services at 607-273-9250 or www.mhaedu.org.

Genetic Counseling

Genetic counseling for cancer involves having a trained genetic counselor help you and your family understand your inherited cancer risk. Inherited cancer risk may be passed from parent to child. The genetic counselor explains available genetic tests. He or she can also offer information about cancer screening, prevention, and treatment options and provide support.

A local organization that provides genetic counseling services to individuals in our area is:

The Ferre Institute
124 Front Street
Binghamton, NY 13905
607-724-4308
www.ferre.org

Lymphedema

Lymphedema is a type of swelling in an arm, leg, or other body part that sometimes occurs after surgery and/or radiation for cancer. Assessment and treatment are available by:

Lymphedema Management Program

Cayuga Medical Center-Department of Physical Therapy
10 Brentwood Drive
Ithaca, NY 14850

Cancer Support for All Ages

Children:

In the local area, children with cancer are most often treated outside of Tompkins County. However, there are some local programs that can assist children and families.

Camp Good Days (www.campgooddays.org) provides residential camping programs and year-round recreational and activities for children with cancer, children with a parent or sibling with cancer, and children who have lost a parent or sibling to cancer.

T-burg Takes on Pediatric Cancer (www.tburtakesonpediatric.com) is a local non-profit organization that raises funds for pediatric cancer research and supports families suffering through pediatric cancer. Funds have gone to families of the cancer patients in order to support any unexpected expenditures that come with their children's cancer diagnosis. Families in need can complete an application for grant funds.

Cancer Resource Center of the Finger Lakes (www.crcfl.net) provides support to parents in talking with their child about cancer and connects them with additional resources in the community. Our program, **CRC Cares About Kids**, now has the ability to help families in need pay for counseling sessions for their children. Insurance co-pays can also be covered.

Young Adults:

Cancer can be especially difficult for young adults because they are just establishing themselves in their relationships and their careers.

Cancer Resource Center of the Finger Lakes offers a support group for young adults (see page 5 for meeting information).

Stupid Cancer (www.stupidcancer.org) is an organization whose mission is to empower, support, and improve health outcomes for the young adult cancer community. Their website provides age-appropriate resources and social networking for young adults with cancer.

Hope for Young Adults with Cancer (www.h4yawc.org) is an organization that provides financial support to young adults battling cancer as well as those who have been in remission for up to 5 years after their treatment. This organization has an application process for financial assistance for the necessities of everyday life.

The Young Survival Coalition (www.youngsurvival.org) is an international organization focusing on the critical issues women ages 40 and under who are diagnosed with breast cancer.

Older Adults:

Cancer becomes more common as people get older. When an older person undergoes cancer treatment, the support s/he needs may relate as much to aging as to the cancer itself. There are local agencies that can provide supports to older adults.

Tompkins County Office for the Aging (607-274-5482) is an excellent resource for assistance with aging-related issues such as housing, home care, health insurance, caregiver services, and more.

Foodnet (607-266-9553 or www.foodnet.org) is the local “Meals on Wheels” Program.

The Health Insurance Information, Counseling, and Assistance Program (HIICAP) of Lifelong (607-273-1511 or www.tclifelong.org) provides help with Medicare, Medigap, long-term care insurance, and other programs serving seniors.

Gadabout (607-273-1878 or www.gadaboutbus.org) provides door-to-door transportation for persons who are 60 and older and/or disabled.

Parking Permits

Parking Permits for individuals with temporary or permanent disabilities are issued through your local city, town, or village clerk’s office. The Department of Motor Vehicles (DMV) does NOT issue these permits.

Transportation

<p>Gadabout 737 Willow Ave, Ithaca, NY 14850 607-273-1878 www.gadaboutbus.org</p>	<ul style="list-style-type: none"> • Gadabout is a non-profit organization providing door to door transportation service for older and disabled residents of Tompkins County. • Reservations for rides must be made in advance.
<p>Friends in Service Helping (FISH) www.fishoftc.org</p> <p>Call 2-1-1 or 877-211-8667 to request transportation assistance.</p>	<ul style="list-style-type: none"> • A non-profit organization with volunteers who provide free rides to Tompkins County residents in need of medical and health related services within Tompkins. • Ride requests should be made 4 days in advance.
